

WEEK 3: June 24th - 28th

DINOSAUR DISCOVERY: Stegosaurus, Triceratops, Velociraptor, Brachiosaurus and Brontosaurus! That's right, it's **DINOSAUR WEEK!** This week your child will enter the world of paleontology and dig for dinosaur bones. Cranbrook Institute of Science will be on site to explain the world of dinosaurs!

WEEK 4: July 1st - 5th

During **OCEAN ADVENTURES WEEK** your child will explore the beautiful world of **OCEANS**. They will learn how the oceans are formed, where they are located and discover the unique organisms that make the ocean their home. Your child will make their very own underwater creature during our "Teddy Bear Workshop".

WEEK 5: July 8th - 12th

THIS PLACE IS A ZOO: This week your child will learn all about the adaptations of mammals found right here in Michigan. They will learn through interactive examples and by meeting live, native mammals up-close and personal. Howell Nature Center will be on site to share these wonderful animals. Don't miss a special appearance by the rare and beautiful, Kili, the Bald Eagle!

WEEK 6: July 15th - 19th

Join us this week for **Fitness, Food and Fun!** Children will learn the importance of keeping healthy through physical, emotional and spiritual fitness. Join Chef Steve as he talks about the importance of eating nutritious, balanced foods and creates some tasty, healthy snacks. Learn to relax with Yoga for kids and discover ways to talk and listen through prayer.

WEEK 7: July 22nd - 26th

SPACE IS THE PLACE: This week's experience will be out of this world as your child enters Cranbrook's Skydome Planetarium and blasts off into **OUTER SPACE**. While in space, young stargazers will embark on a mesmerizing and educational journey through space exploring the moon phases, traveling through the galaxy to other planets and connecting the twinkling stars.

WEEK 8: July 29th - August 2nd

MAD SCIENCE WEEK: It's all about ME! This week your child will meet Mr. Bones and learn about the muscles, bones and body systems hard at work in their very own bodies. Children will receive a very special keepsake!

WEEK 9: August 5th - 9th

LET'S GET MOVING: Planes, Trains, Automobiles, Tricycles & Bikes. During this week your child will learn about the different types of transportation and discover the importance of transportation safety. The children will have fun as they go through a bicycle safety training course to earn their "driver's license" and ride in a bike parade.

WEEK 10: August 12th - 16th

Welcome to **ANIMAL MAGIC** with Mark Rosenthal. Children will be educated and entertained as Mark introduces his exotic animals. Mark will share his knowledge on respect, appreciation and conservation of these unique animals that share our planet. Mark is dedicated to exotic wildlife and endangered species conservation and life science education.

Botany - Spending time in the garden

Learning about Dinosaur Bones

During the summer program at Montessori Center of Our Lady, we have exciting and fun themes to keep your child's curious hands and minds busy. Check out what we have planned!

WEEK 1: June 10th - 14th

Fun with COLORS: Does your child love to paint, draw, color or sculpt? During this week your child will work with the colors of the rainbow and discover their inner artist as they experiment and create while working with new colors. They will have fun tie-dyeing their very own T-shirt.

WEEK 2: June 17th-21st

MUSIC MAKERS: Music is in the air as your child enjoys making beautiful music through song and making their very own musical instruments. Children will also experience hands-on activities with percussion, keyboard, string and wind instruments.
